Pittsburg Fans On Qui Vive-World Series Begins This Afternoon-Clash of League Leaders-Last of Na. tional League Games Thursday.

Pittsburg. Pa., Oct. 7.—Detroit, the American league champions, and Pittsburg the winner of the National league pennant, will meet here tomorrow in the opening game of the series which will decide the baseball championship of the world for 1969. It will be Detroit's third attempt in as many years to win the greatest honors in organized football, for Hugh Jennings' champions have been defeated by the Chicago Nationals in the last two world's series. Pittsburg has not had an opportunity of contesting for the world's championship since 1963, when it won the National league pennant and was defeated by the Boston Americans in the oig series.

Good Weather Promised.

The regular lineup of both teams will be on the field tomorrow and the team which loses will have few excuses to offer, for every man is in excusion. Intyre, but Jones has been in enough games to be classed as a regular .Outside of this position there is no doubt concerning the personnel of the two teams for the opening game, The game tomorrow, as on Saturday, will start at 2 p. m., eastern time.

Good Weather Promised. The local weather forecaster has promised good weather conditions for tomorrow and a record breaking crowd at Forbes field is certain. Every reserved seat of the 18,000 has been engaged and thousands of enbeen engaged and thousands of en-thusiasts are expected to engage in the wild scramble for the other apaces in the mimense amphitheater. It is expected that 35,000 persons will see the first games. While the weather predictions fo riomorrow are promis-ing, the local expert has refused to make the same forecast for Saturday, because he says there is a storm head-ing this way.

Mullin vs. Adams in the Box. Both teams are determined to win the opening game, for the winner of the first contest in the last four world's series has captured the cham-pionship. As a result, both managers, Fred Clarke and Jennings, will send in the men they consider their strong-est at present to do the pitching. Jenest at present to do the pitching. Jennings said he would probably use George Mullin, his strong and reliable veteran, while Clarke is planning to use Charlie Adams, the man who came from the Louisville American association team at the beginning of this season and made a phenomenal record with Pittsburg. Schmidt is scheduled to do the catching for Detroit, while Gibson, the reliable, is scheduled to go behind the bat for the National league champions.

Four Umpires Selected.

Frank O'Loughlin of the American league and J. E. Johnstone of the National league, will umpire tomorrow, wille William Klem of the National league and William Evans of the American league are billed to officiate in Saturday's battle. SUBSTANTIAL RECOVERY.

New York, Oct. 7.—The stock market gave early evidence today that the liquidating pressure on United States Steel had subsided and the tone of the whole speculation was shaped accordingly. United States Steel continued disproportionately prominent, but not as unduly so as yesterday. The 626,000 shares of United States Steel dealt in yesterday out of an aggregate of 1,500,000 for all stocks do not include the so-called

out of an aggregate of 1,500,000 for all stocks do not include the so-called stop-loss orders, which, under a rule of the stock exchange, are not printed on the tape. That is to say, a customer having ordered his broker to sell his stocks if the quoted price shall recede to a designated figure, the sale is made for what price it will bring when the set price is reached, but no report is made of the transaction. Allowing for these sales, which are known to have been on an engimous scale in the case of Steel, and there is seen to be room for an extensive clearing up of the

been on an engrmous scale in the case of Steel, and there is seen to be room for an extensive clearing up of the speculative position in the amount of business done in the stock yesterday and the day before. The way was thus cleared for the substantial recovery of today. Weaker accounts had been wiped out and transferred to hands better able to care for them. The money market showed signs of having been eased also by the substantial loan repsyments which must have accompanied the stock market liquidation of the past day or two. Funds were reported in better supply early today, although the loaning rate was not materially affected. Bankers closely associated with the United States Steel corporation offered large sums in the call loan market. It was the measure of this group to replenish the supply that were given responsibility for the weakening of the foreign exchange market yesterday, with talk of early gold imports and a relief of the money market. The immediate effect of this development was the advance in the official discount rate of the Bank of England today from 2 1-2 to 3 per cent. The hardening of the private discount rate in London and the steady inroads making on the bank's buillon holdings revealed by the weekly return published today made it evident that the advance in the official rate was imminent anyhow. Word from Berlin also points to an early further rise in the official discount rate of the Imperial Bank of Germany. The private discount rate rose in Paris today and the Bank of France reported a

The prevailing odds are 2 to 1, with Pittsburg the favorite, but little betting is being done because of the absence of Detroit money. Many wagers are being made that Hans Wagner will outbat Ty Cobb and this is considered an even money proposition.

PITTSBURG FLOATS PENNANT. National Leaus Season Over-Pirates and Chicao Easily First and Second.

New York, Oct. 7 .- With the pennant New York, Oct. 7.—With the pennant floating securely over the Pittsburg clubhouse for another twelve months, the 1903 National league championship baseball season passed into history today. Boston and Brooklyn won the final victories of the season, the former defeating Philadelphia and the latter New York. Pittsburg's victory has been widely predicted since May 5, when the team assumed an aggressive lead. Chicago long held a menacing position, however, and the championship was not clinched until September 28. On that date the Hilinois team suffered defeat by Philadelphia, and though Pittsburg came out with and though Pittsburg came out with the little end of a game with New York, her hold on the pennant zecame

But even this year the Chicagos are the first team in National league history to finish second with a record of more than one hundred games won; New York finished third with a record of 93 victories out of a total of 153 games played, and Cincinnati, under a new manager, came out fourth. The disappointments of the season were the Brooklyn, St. Louis and Boston clubs. Brooklyn won 55 games—just half the number the league leaders won—while Boston brought up the tail end of the procession with only 45 victories out of a possible 155.

Philadelphia, Oct. 7.—The last of the New York and Chicago golf players were defeated today in the third round of match play for the women's golf championship over the Merion Cricket club links, so the remainder of the contest will be a three cornered struggle between two Philadelphians, one Bostonian and a Scottish star. Miss Dorothy Campbell, British champion, won her match today and there is general feelin amout the contestants that she stands an excellent chance of carryin the title home with her. Such an outcome would be so unpreceduted that it was never seriously reckoned with until within a day or two.

MORDECAI'S FINGERS. Double Accident Made Him a Wonder-ful Pitcher.

When you meet Mordecal Brown, the wonderful Cub pitcher, you naturally look at his right hand and wonder how he pitches so well. The first joint of his little finger is at right angles with the rest. The next finger has no bone in the first joint, and the middle finger is crushed fearfully. The first finger is a stump. Such deformities are not generally pleasing subjects to the victim, but Brown is not sensitive. Possibly this is true because he has won his way to fame through these same mitigated digits. At any fate, he is willing to discuss the accident which made him a national character. "I was a kid of five and lived in Myesville, Ind.," Brown said when assign to tell how he lost his fingers. "My brother used to cut feed for the horses in a patent box fitted with circular knives. One day is was feeding the knives and my hand slipped in among the knives. Every finger was chopped to ribbons, but the doctor managed to sew them together, although you see he didn't do much of a job.

"I carried that hand around in splints and was doing fairly well when about five weeks after the accident my sister and I were playing with a pet rabbit. We had it in a tub partly filled with water and I was making it swim. Suddenly I lost my balance and tum-

SOME FIGHT DOPE. Corbett Fears Johnson Will Do Ketchel-Tommy Ryan Hopeful.

"My sympathy is all with Ketchel." says James J. Corbett, according to the Sun, "and I sincerely hope he will defeat J hason next week. But I'm alraid the negro is too big and clever for him. Still it's the wallop that counts, and if Ketchel can get close enough to reach Johnson's head or stomach he may make a deep impression. I do not call Johnson a wonder by any means, but he knows how to box and that means a whole lot. He has never been extended and the fact that he handled a big fellow like Kaufman so easily makes me believe that he will at least stand Ketchel off. Still it is not safe to predict the result of this affair, because Ketchel is a treatendous puncher and has the a trouchdous puncher and has the courage of a lion. There is no sham about him and he likes to fight. There is no doubt as to his gameness and I feel sure that he will make a desperate fight from the moment the battle begins. To me it seems to be simply begins. To me it seems to be simply a question whether Ketchel can break, through Johnson's defense Burns couldn't do it, but in must be bemembered that Bruns is not in the same class with Ketchel. The latter showed that he was wonderfully ter showed that he was wonderfully fast when he stopped Jack O'Brien, than whom there is no more scientific man in the ring today.
